Terms of Reference (TOR)

Livelihood Development Specialist

Background

The Smallholder Agribusiness and Resilience Project (SARP) is co-funded by the International Fund for Agricultural Development (IFAD) and the Government of Sri Lanka is for a period of 6 years (2021 to 2027). It aims to contribute to reduce poverty among small-scale farmers and increase food security and nutrition in dry zones by building resilience and enabling rural households to access markets in geographies affected by climate change. The project is focused in select hotspots in Vauniya, Mannar, Puttalam, Kurunegala and Mathale districts aligned across the Deduru oya, Mee oya and Malwathu Oya river basins. Total project finance value is USD 82 Mn.

Scope of work

The Livelihood Development Specialist will report directly to the Project Director & Head of Value Chain Development and work collaboratively with Provincial and District level senior Government staff. She/he will have the following main responsibilities:

- Liaise with Youth Entrepreneurship Development Specialist and Agri Business Development Specialist to identify households benefitting from Livelihood Resilience activities including those with potential for scaling-up for investments for inclusion of small farmers organized into business-oriented Farmer Producer Organizations (FPO) across all six districts.
- Prepare guidelines for the implementation of Livelihood Development Program – 16,900 House Holds for implementation.
- Contribute to prepare AWPB and Procurement plan as per the requirements given and attend meetings to finalize proposals. Respective Specialist is responsible for the duties assigned and accountable for the budget allocated.
- Prepare strategic plan and project implementation modalities to reach the targets by end of the year 2026 in relation to Livelihood Resilience activities.
- Prepare annual action plan; and measures should be taken to achieve the targets in relation to Livelihood Resilience activities.
- Liaise and Coordinate with the line Ministries and Agencies to get the technical support for project designing and implementation in relation to Livelihood Resilience activities.
- Arrange project orientation meetings for the project stakeholders and farmer mobilization meetings at the project locations.
- Guide, coordinate and assist regional staff of SARP in project implementation
- Attending meetings, field visits and reporting.
- Prepare TORs for contracting Service Providers as and when required
- Liaise with project stakeholders and identify project implementation issues and make suggestions and recommendations for the smooth functioning of project activities.
- Keep records, maintain files and establish project tracking and monitoring system

- Monthly submission of progress report.
- Provide technical guidance to the technical team of agricultural officers and AI counterparts in climate smart technologies, livestock development; facilitating the setting up of demonstration sites; disseminating improved/ tested technologies and Good Agricultural Practices (GAPs).
- Preparation of extension materials (IEC) in selected subject areas and provide support to project technical and extension staff to transfer knowledge to the beneficiaries.
- Assess immediate and future training and extension needs of the farming community for agriculture and livestock related activities.
- Provide technical guidance and organize training for AIs and ARPAs and farmers in all aspects of agriculture and livestock related activities.
- Liaise closely with all relevant Government departments and research institutions, testing research findings and adapting them to the conditions of the project area.
- Guide rice specialist to undertake his/her assigned tasks who will be recruited to disseminate climate smart technologies and climate smart irrigation practices through demonstrations and the training of technical staff and front-line extension workers.
- Guide and monitor agriculture and livestock officers deployed for each district. Evaluate performance of agriculture and livestock officers
- Identify input supplies and locally available equipment for agricultural related activities and support procurement specialist to procure and distribute.
- Co-ordinate organizational and technical aspects for the organization of Farmer Field Schools providing backstopping support to the agriculture officers and AI extension workers.
- Monitor the distribution of inputs, materials and equipment required for the establishment of natural resource management-based activities.
- Make sure to conduct timely field visits to hotspot areas in each district and complete all the field level activities within the stipulated time period.
- Ensure submission of reliable data and information to the M&E officers timely. Closely work with Youth Entrepreneurship Development Specialist and Agri Business Development Specialist
- Carryout any other duties assigned by the project director
